- A. County designates Command 1 for Intercity/Interagency tactical traffic. Red Cross uses the frequency as Command. County and Red Cross have an agreement to share OQS with Net Control and final authority on usage resting with County.
- B. County designates Command 2 as an intercom for County Staff and EC's.
- C. County designates RNH as an alternate repeater for Command 2. Red Cross uses RNH as a talk around/intercom among Communications staff.
- D. Resource is used as a holding repeater for radio volunteers who have not been given a specific assignment somewhere in the County. This is also the repeater volunteers need to check in on until given an assignment.
- E. Mountain View uses W6ASH 2-meters as a Command repeater if it is not needed as a resource alternate. Palo Alto and Los Altos also uses the repeater.
- F. Palo Alto uses the W6APZ repeater unless the repeater is needed by the hospital net.
- G. The Milpitas simplex frequency is in the EME & Weak SSB area of the band. Milpitas is looking for an alternative. Also, Milpitas links its Command and Tactical channels during weekly check-in.
- H. The Mountain View tactical frequency is bled over by 9600 baud packet. Mountain View is looking for an alternative.
- I. The BRAG area is an industrial area of Mountain View east of US101 and north of Moffett Federal Airfield.
- J. NASA-Ames alternate 2 is shared with Sunnyvale TRW.
- K. Used in Stanford Industrial Park.
- L. Used by some of the other corporations.
- M. South County - resources shared by Morgan Hill, Gilroy, and the unincorporated areas of southern Santa Clara County.
- N. Cupertino shares this frequency with Foster City ARES (simplex, PL=114.8).
- O. Stanford ARES; Repeater offset is -12 MHz offset, Black Mountain
- P. Stanford ARES; Repeater offset is -20 MHz offset, Stanford Campus

These entries were deleted from the list due to the loss of the resource or disuse.
